

MY MUST-HAVE

Bullet Journal Collection Pages

A Collection page is a page dedicated to a specific list or project that you can reference or return to. A good way to decide on what Collection pages will work best for you is first taking some time to think about what you personally want to use your bullet journal for, then you can tailor those spreads to your needs. Check out some of my go-to Collection page spread ideas below and visit my website for more bullet journaling tips and tricks.
